

shadows on the wall

A NEW COLLECTION FROM
BN WALLCOVERINGS

The **Shadows on the Wall** collection is designed by **Annet van Egmond**, of the Dutch design duo Brand Van Egmond. Turning her hand to wallcoverings, Annet was influenced by the romance and fashion of bygone days, and looked to **Coco Chanel**, **strings of pearls**, **fine lace**, and moody **smoking rooms** for her inspiration.

Her romantic theme is further enhanced with roses - from elegant faded blooms through to highly contemporary pixel-prints.

Designed by Annet van Egmond, for BN WALLCOVERINGS

Annet and her husband form the dutch duo Brand van Egmond, and are renowned lighting designers. Their designs are true works of art, and can be found in homes, hotels and restaurants around the world. Their lighting designs are also featured throughout the Shadows on the Wall collection .

Turning her hand to wallcoverings, Annet found she was influenced by the romance and fashions of bygone days. She looked to Coco Chanel, strings of pearls, fine lace and the moody smoking rooms of the 1930's for her inspiration.

The themes of fashion, romance, ...and subtle sensuality ...are found throughout this collection.

Her romantic theme is further enhanced with roses ...roses everywhere!

From elegant faded blooms through to highly contemporary pixel prints.

Shadows on the Wall has been created using gravure and screen print techniques. The textured, tactile surface is further enhanced with embossing and specialist inks.

The surface is a solid vinyl film supported with a fibre backing, so these products are stronger, heavier and longer lasting than wallpapers.

All these designs are paste-the-wall products, so are much easier to hang and tear resistant too!

Shadows on the Wall is now available through carefully selected stockists throughout the UK and Ireland.
