

*A New Collection
from BN Wallcoverings*

Chacran

*C*hacran is all about texture and **subtle surface design**. Woven grass, sculpted stone, and homespun **fabrics** are featured throughout this range. **Slate, soft clay, straw, peat** and **putty**; natural muted colours are mixed with tiny mica particles to **catch the light**, creating designs with timeless appeal.

Our studio have included selected larger-scale coordinates, continuing the natural theme with **floral** and **woodland** prints,
